

BANNOCK COUNTY PLANNING & DEVELOPMENT SERVICES REQUEST FOR PARCEL DETERMINATION

The general purpose of a parcel determination is to determine whether or not a piece of property has met County subdivision requirements for development purposes. Parcel determinations may also help in determining whether or not a property could be further split by a “minor land division” (see Bannock County Subdivision Ordinance). These determinations are provided as a service to the public, but *property owners are ultimately responsible* for ensuring that they meet all County requirements in order to obtain any desired permits.
